

Suntheanine® SR

Sustained Release

Brain Health + Relaxation Support*

What Is It?*

Suntheanine® SR is specially formulated with SmartMatrix™ secure release tablet technology to gradually deliver Suntheanine® SR over several hours. The tablet releases up to 40% quickly for immediate support, while the remaining 60% is released slowly to provide longer-lasting effects.

How Does It Work?*

Since Suntheanine® SR has a similar structure to glutamate and can bind to glutamate receptors in the brain, researchers believe this is the main action responsible for its ability to help the body manage stress and reduce its negative effects.¹

After ingestion, Suntheanine® SR has the ability to cross the blood brain barrier from 30 minutes up to 5 hours. In the brain, Suntheanine® SR is reported to exert its calming effect by several actions:²

- ▶ Modulating neurotransmitter activity: Suntheanine® SR may influence the transport and activity of glutamine and glutamate, key neurotransmitters involved in mental alertness and calmness.
- ▶ Interacts with brain receptors: Suntheanine® SR can interact with certain glutamate receptors in the brain, which may help promote a calm and relaxed mental state.
- ▶ Supports the growth of new brain cells: Suntheanine® SR may help support neurogenesis. Stress can reduce the growth of new brain cells, but Suntheanine® SR has been shown to help support neurogenesis.

Suggested Use: As a dietary supplement for adults, take one (1) tablet daily with food or as directed by your healthcare professional.

Product Availability

Bottle Size(s):

- 200mg, 90 tablets
- 400mg, 30 tablets

Supplement Facts

Serving Size 1 Tablet

Amount Per Serving	% DV
L-Theanine (Suntheanine®)	200 mg *

* Daily Value (DV) not established.

Supplement Facts

Serving Size 1 Tablet

Amount Per Serving	% DV
L-Theanine (Suntheanine®)	400 mg *

* Daily Value (DV) not established.

Other Ingredients: Vegetable wax (rice bran and/or carnauba), stearic acid (vegetable), magnesium stearate (vegetable), and silica.

Suntheanine® SR

Sustained Release

Promotes Calm, Relaxation

Typical Dosage 200–400 mg/day

Randomized, double-blind, placebo-controlled trials indicate Suntheanine® SR helps reduce stress and promotes a positive mood. Effective amounts include both a single dose (200 mg)^{3,4} and 200–400 mg/day for up to 4 weeks.^{5,6,7}

Supports Cognitive Function

Typical Dosage 100–200 mg/day

Randomized, placebo-controlled clinical trials indicate a single dose of Suntheanine® SR (100–200 mg) supports optimal cognitive function in healthy adults, including promoting optimal reaction times in attention tasks in healthy young adults;⁸ visual attention and reaction time in healthy adults under stress;⁹ and attention, working memory, and executive function in middle-aged and older adults.¹⁰

Promotes Sleep Quality

Typical Dosage 100–400 mg/day

A recent meta-analysis¹¹ of 18 clinical trials found Suntheanine® SR promotes overall sleep quality, including the ability to fall asleep quickly and reduced daytime sleepiness. Most studies used 100–400 mg/day, most often 200 mg/day. Suntheanine® SR was typically taken 30–60 minutes before bedtime, either as a single dose or daily for several weeks.

Ingredient Spotlight: Suntheanine® SR

High Purity

The patented fermentation process yields no less than 98% L-isomer, ensuring a reliable and effective standardized ingredient.

Robust Research Portfolio

Supported by extensive research, including clinical trials, animal safety studies, and mechanism of action investigations.

Excellent Safety Profile

FDA Generally Recognized As Safe (GRAS) status and approvals by international food authorities underscore its strong safety profile.

SmartMatrix is a trademark of Innovite, Inc. Suntheanine® SR is a registered trademark of Taiyo International, Inc.
